Q1 2015 - 2016

CANADA LANDS COMPANY LIMITED  
SOCIÉTÉ IMMOBILIÈRE DU CANADA LIMITÉE

# Management's Discussion and Analysis of Financial Results

For the period ended June 30, 2015

The following Management's Discussion and Analysis for CLCL should be read in conjunction with the corporation's consolidated financial statements included in this quarterly report.

## BASIS OF PRESENTATION

Financial data included in this Management's Discussion and Analysis ("MD&A") for the period ended June 30, 2015, includes material information up to August 25, 2015. Financial data provided has been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB). All dollar references, unless otherwise stated, are in millions of Canadian dollars, except retainers, acres, per diems and per visitor figures.

Canada Lands Company Limited (CLCL or the corporation) is the parent company of Canada Lands Company CLC Limited (Canada Lands), Parc Downsview Park Inc. (Downsview Park) and the Old Port of Montréal Corporation Inc. (Old Port).

The following MD&A for CLCL should be read in conjunction with the corporation's consolidated financial statements and notes included in the annual report.

## NATURE OF THE BUSINESS

CLCL operates within two principal segments: 1) Real Estate, through Canada Lands and Downsview Park, and 2) Hospitality and Tourism, through Canada's National Tower (the CN Tower) and Old Port.

CLCL, through Canada Lands, carries out CLCL's core real estate business in all regions of Canada. CLCL carries out its policy mandate "to ensure the commercially oriented, orderly disposition of selected surplus federal real properties with optimal value to the Canadian taxpayer and the holding of certain properties." This mandate was approved by the Government of Canada (the government) on reactivation in 1995. CLCL optimizes the financial and community value of strategic properties no longer required for program purposes by the government. Through Canada Lands, it works to purchase properties at fair market value, then holds and manages or improves and sells them, in order to produce the best possible benefit for both local communities and the corporation's sole shareholder, the Government of Canada.

Canada Lands holds real estate across the country in various provinces and in various stages of development, with significant holdings in Vancouver and Chilliwack, British Columbia; Calgary and Edmonton, Alberta; Ottawa and Toronto, Ontario; Montréal, Quebec; Halifax, Nova Scotia; and St. John's, Newfoundland & Labrador.

Downsview Park is 231.5 hectares (572 acres) of land at the former Canadian Forces Base (CFB) Toronto, located in Toronto, Ontario. The land includes the National Urban Park. The balance of the lands will be developed with a full range of uses.

CLCL conducts its hospitality and tourism operations through the CN Tower and Old Port. The CN Tower is an iconic landmark and tourist attraction located in downtown Toronto. The core business is managing the country's highest observation tower including restaurant operations and the unique Edgewalk attraction.

Old Port is located in Montréal along the St. Lawrence River. Its core business includes managing and hosting activities on an urban recreational, tourist, and cultural site. Old Port also owns and operates the Montréal Science Centre.

## GOVERNANCE

CLCL continues to provide bare certification of the consolidated financial statements (the financial statements) by its President and Chief Executive Officer and its Executive Vice President Corporate Services and Chief Financial Officer. Due to the additional expense and resources involved, CLCL has not proceeded further with certification. CLCL will monitor developments in this area and assess how it can proceed.

CLCL's Board of Directors is composed of the Chairman and six directors. The Chairman and the directors are independent of management and are appointed by the Governor in Council. The compensation for the Chairman and directors is set by the Governor in Council and consists of annual retainers of \$9,400 for the Chairman and \$4,500 for directors, as well as a per diem rate of \$375 for both the Chairman and directors and \$250 for teleconference meetings.

The Board's expenses for the period ended June 30, 2015 including travel expenses, conferences and seminars, liability insurance and annual retainers and per diems, totalled \$0.1 (June 30, 2014 - \$0.1).

The Board and senior management expenses are posted on Canada Lands website, [www.clc.ca](http://www.clc.ca)

## OBJECTIVES AND STRATEGIES

The corporation's goal in all transactions is to produce the best possible benefit for both local communities and the Government.

### Real Estate

The corporation optimizes the financial and community value from strategic properties that are no longer required by the Government. It purchases these properties at fair market value, then holds and manages them or improves and sells them.

In its development properties, the corporation follows a rigorous process to create strong, vibrant communities that add lasting value for future generations of Canadians. In all the work the corporation undertakes it strives to achieve its organizational goals of Innovation, Value and Legacy.

### Hospitality and Tourism

Through the CN Tower and Old Port, the corporation provides world-class entertainment and a wide range of unique attractions, exhibits and food and beverage offerings. The corporation also manages and hosts activities and events on urban recreational, tourism and cultural sites, and maintains the lands, buildings, equipment and facilities on those sites, including the Montréal Science Centre.

## RESOURCES, RISKS AND RELATIONSHIPS

### RESULTS

A summary of the various components of the corporation's Consolidated Statement of Comprehensive Income follows. Discussion of the significant changes in each of these components for the period ended June 30, 2015 compared to prior year's first quarter are provided on the following pages.

	Three months ended June 30		
	2015*	2015 Budget	2014*
Real estate sales	\$ 54.2	\$ 7.5	\$ 0.3
Attractions, food, beverage and other	22.3	22.5	21.0
Rental operations	10.3	10.3	11.5
Interest and other	2.0	1.9	1.6
<b>Total Revenues</b>	<b>\$ 88.8</b>	<b>\$ 42.2</b>	<b>\$ 34.4</b>
General and administrative expenses**	6.9	6.5	6.3
Income before taxes	6.8	0.8	2.1
Net income and comprehensive income (after tax)	5.4	0.6	1.3

	Three months ended June 30, 2015				Three months ended June 30, 2014			
	Old Port	Downsview Park	Canada Lands	Total	Old Port	Downsview Park	Canada Lands	Total
Real estate sales	\$ -	\$ 52.9	\$ 1.3	\$ 54.2	\$ -	\$ -	\$ 0.3	\$ 0.3
Attractions, food, beverage and other	2.1	0.8	19.4	22.3	1.9	0.9	18.2	21.0
Rental operations	2.1	2.3	5.9	10.3	2.6	2.6	6.3	11.5
Interest and other	0.8	-	1.2	2.0	0.6	-	1.0	1.6
<b>Total Revenues</b>	<b>\$ 5.0</b>	<b>\$ 56.0</b>	<b>\$ 27.8</b>	<b>\$ 88.8</b>	<b>\$ 5.1</b>	<b>\$ 3.5</b>	<b>\$ 25.8</b>	<b>\$ 34.4</b>
General and administrative expenses**	1.2	0.4	5.3	6.9	1.1	0.3	4.9	6.3
Income (loss) before taxes	(2.3)	4.7	4.4	6.8	(2.3)	0.3	4.1	2.1
Comprehensive income (loss) after taxes	(1.7)	3.5	3.6	5.4	(1.6)	0.2	2.7	1.3

\* By entity

\*\* The corporation has reclassified certain figures in the Consolidated Statement of Comprehensive Income to conform to the current presentation and better reflect the nature of expenses. See note 26 of the consolidated financial statements.

## REVENUE

Revenue of \$88.8 for the period was \$46.7 and \$54.4 ahead of budget and the comparative prior year period.

Revenues comprised four principal sources:

### I. Real Estate sales

Real estate sales of \$54.2 for the period comprised sales of property developed as building lots and sold to builders of single family homes, apartments and condominiums, and undeveloped lands that were sold. Real estate sales anticipated to close in the fourth quarter of 2014/2015 actually closed during first quarter of 2015/16. The nature of the corporation's business does not allow for a consistent year over year volume of sales. Revenue is comprised of sales in specific projects across Canada as the individual marketplaces dictate.

Real estate sales by region were as follows:

	Period ended June 30	
	2015	2014
West	\$ 1.3	\$ 0.3
Ontario	52.9	-
Quebec	-	-
Atlantic	-	-
<b>Total</b>	<b>\$ 54.2</b>	<b>\$ 0.3</b>

Real estate sales for the period generated gross profit, excluding general and administrative expenses and income tax, of \$5.6 or 10.3%, compared with \$0.1 or 15.8% in the prior year. Margins vary widely from project to project and are influenced by many factors, including market demand in the project's location, the proximity of competing developments, the mix of product within the project, the cost of land, and the length of time for a project to be sold.

### 2. Attractions, food, beverage and other

Attractions, food, beverage and other hospitality represent revenue from the CN Tower operations including admissions, restaurants and related attractions, and Old Port and Downsview Park operations including sports facilities, parking, concessions, programming, events, corporate rentals, and other hospitality revenues.

#### CN Tower

CN Tower revenue of \$19.4 for the period is \$0.8 higher than the prior year. Gross profit of \$6.0 for the quarter is \$1.1 higher than the comparative prior year quarter.

The current year to date improvement was principally a result of increased per guest spend. The average year to date guest spending of \$47.89 per visitor was \$2.66 per visitor or 5.9% higher than the comparable prior year period. Attendance during the year of 0.4 million visitors was unchanged from the comparable prior year quarter.

#### Old Port

During the quarter, Old Port revenue of \$2.1 from its parking, concessions, programs and events was \$0.2 above the comparative prior year quarter.

#### Downsview Park

During the quarter, Downsview Park revenue of \$0.8 from its sports facilities, programs and events, restaurant operations was \$0.1 less than the comparative prior year quarter.

### 3. Rental operations

Rental comprises revenue from commercial, industrial and residential properties held as investments as well as properties located on lands under development and held for future development across the country. Rental revenue of \$10.3 during the quarter was generated by investment properties, properties in inventory at various stages of development, and other properties. The rental revenue decreased by \$1.2 for the quarter compared to the comparative prior year quarter.

Rental revenue by province was as follows:

	Period ended June 30	
	2015	2014
West	\$ 4.6	\$ 4.3
Ontario	3.4	4.0
Quebec	2.3	2.8
Atlantic	-	0.4
<b>Total</b>	<b>\$ 10.3</b>	<b>\$ 11.5</b>

Rental gross profit of \$2.5 (or 24.2%) for the quarter was lower than the comparative prior year quarter by \$1.0.

### 4. Interest and other revenues

Interest and other revenue of \$2.0 for the quarter is comprised principally of interest on short term investments, cash and cash equivalents, and mortgages, and donation and sponsorship revenues at Old Port.

### 5. Government funding

In prior years, the corporation received funding from the Government of Canada to support the activities of Old Port based on cash flow requirements. As of April 1, 2014, Old Port's appropriations were discontinued and the corporation is responsible for the funding of Old Port's operating deficit and capital requirements.

## OTHER

### General and administrative expenses

General and administrative (G&A) expenses of \$6.9 for the quarter were higher than the comparative prior year quarter by \$0.6 due to non-recurring restructuring costs.

### Taxes

The effective tax rate for the current year was 21.2%.

## FINANCIAL POSITION

### ASSETS

At June 30, 2015 and March 31, 2015, the total carrying value of assets was \$888.9 and \$878.6, respectively. The following is a summary of the corporation's assets:

	June 30, 2015	March 31, 2015
Inventories	\$ 323.7	\$ 340.3
Investment properties	30.2	13.8
Property, plant and equipment	141.3	157.4
Cash and cash equivalents	165.1	184.2
Deferred tax asset recoverable	92.0	91.3
Long-term receivables	109.8	67.5
Trade and other assets	29.2	24.1
<b>Total</b>	<b>\$ 891.3</b>	<b>\$ 878.6</b>

## **Inventories**

The corporation's inventories comprise of properties held for future development of \$146.6 (March 31, 2015 - \$146.3), properties under development of \$173.1 (March 31, 2015 - \$190.1) and properties held for sale of \$4.0 (March 31, 2015 - \$3.9).

Inventory is recorded at the lower of cost and net realizable value.

The corporation made cash expenditures of \$6.9 on these properties during the quarter, compared with \$13.1 during the comparative prior year quarter. Spending on inventories varies year over year based on required and planned expenditures on those properties to prepare them for sale.

## **Investment properties**

Investment properties are principally comprised of land located in Toronto on which the Rogers Centre is built and surrounding the CN Tower Base, along with certain properties at Downsview Park. During the quarter, the net transfers from property, plant and equipment to investment properties were \$17.9 primarily due to changes in the nature of operations in certain buildings at Downsview Park.

## **Property, plant and equipment**

Property, plant and equipment principally consist of the CN Tower, the National Urban Park, the Plaza Garage, the John Street Parkette, the Montréal Science Centre, quays, bridges, the Old Port office building and land, vehicles, exhibitions, and computers and office equipment. Capital expenditures are made to property, plant and equipment to maintain and enhance the high quality of the infrastructure. There were capital additions of \$4.6 for the quarter, compared with \$0.4 during the comparative prior year quarter. There were non-cash depreciation charges against property, plant and equipment of \$3.1 for the quarter, compared to \$3.0 during the comparative prior year quarter. These expenditures exclude repairs and maintenance costs. Capital expenditures vary period over period based on required and planned expenditures on the property, plant and equipment. The cost of most of the capital assets of Old Port and the Montréal Science Centre that would typically be capitalized are offset by the recognition of government funding received in prior years.

## **Cash and cash equivalents**

The corporation continues to maintain high levels of liquidity which will allow it to react to future potential opportunities which may require significant amounts of cash. At June 30, 2015, cash and cash equivalents balances held in major Canadian chartered banks and financial institutions were \$165.1, compared to \$184.2 at March 31, 2015. The decrease in cash and cash equivalents during the quarter was principally due to operations, capital investment for inventory and property plant and equipment, income tax installments and repayments against credit facilities.

## **Deferred tax asset**

The deferred tax asset amount of \$92.0 principally relates to the temporary differences between the carrying values of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes at Downsview Park. The deferred tax asset is expected to be realized upon the sale of development lands in future years.

## **Long-term receivables**

Long-term receivables include mortgages on sold properties and amounts receivable from partners from joint venture cash flows. The increase in the balance from March 31, 2015 is a result of a land sale that was partially financed through a vendor take back mortgage.

## **Trade and other assets**

Trade and other assets include rent and other receivables, prepaid assets, and CN Tower inventory.

## LIABILITIES AND SHAREHOLDER'S EQUITY

The corporation's assets are financed with a combination of debt and equity. The components of liabilities and equity are as follows:

	June 30, 2015	March 31, 2015
Credit facilities	\$ 69.9	\$ 71.6
Notes payable	274.8	273.0
Trade and other payables	40.8	32.9
Prepaid rents, deposits and others	9.8	13.3
Deferred revenue	4.7	5.6
Other liabilities	46.0	32.3
<b>Total liabilities</b>	<b>\$ 446.0</b>	<b>\$ 428.7</b>
Contributed Surplus	181.2	181.2
Retained Earnings	264.1	268.7
	445.3	449.9
<b>Total liabilities and shareholder's equity</b>	<b>\$ 891.3</b>	<b>\$ 878.6</b>

### Credit facilities

The corporation has two credit facilities.

Downsview Park has an unsecured demand revolving credit facility for \$90.0. The credit facility can be used by way of loans, bankers' acceptances and letters of credit. Downsview Park has utilized \$80.9 at June 30, 2015 (March 31, 2015 - \$82.6) of which \$11.0 (March 31, 2015 - \$11.0) has been used collateral for letters of credit outstanding. The other proceeds from the credit facility have been used to finance the construction and development of Downsview Park projects and the repayment of notes payable.

Canada Lands has a senior, unsecured revolving credit facility in the amount of \$50.0. The credit facility can be used by way of loans, bankers' acceptances and letters of credit. Canada Lands has utilized \$28.6 at June 30, 2015 (March 31, 2015 - \$29.1) as collateral for letters of credit outstanding.

### Notes payable

Notes payable are issued in consideration for the acquisition of real estate properties and are due to the Government of Canada. These notes are repayable on the earlier of their due dates from 2015 to 2050 or the dates on which net proceeds become available from the sale by the corporation of the properties in respect of which the notes were issued, except in a limited number of instances where the terms of the note state when the issuer can demand payment and are not dependent on property cash flows. All notes are non-interest bearing.

Based on the anticipated timing of the sale of the real estate properties and the specific repayment requirements within the notes, principal repayments are estimated to be as follows:

Years ending March 31 (remainder of year)	2016	\$	31.1
	2017		28.2
	2018		23.1
	2019		3.2
	2020		16.3
Subsequent years			230.6
Subtotal			332.5
Less: amounts representing imputed interest			57.7
		\$	274.8

### **Trade and other payables**

Trade and other payables increased from the prior year due to the accrual for a \$10.0 dividend declared by the Board of Directors to its shareholder in June which was paid in July. All trade and other payables are trade payables and accrued liabilities incurred in the normal course of operations.

### **Prepaid rents, deposits and others**

Prepaid rents, deposits and others are largely comprised of real estate sales deposits by purchasers and builder deposits, which are part of the normal course of operations.

### **Deferred revenue**

Deferred revenue represents revenue from rental/leasing, programs and events, and development and other income which has not yet been earned by the corporation.

### **Other liabilities**

Other liabilities include provisions, government funding, and income taxes. The increase in other liabilities is a result of provisions required for costs to complete real estate properties sold in the current quarter. The increased provisions were partially offset by government funding applied against the acquisition of property, plant and equipment at Old Port and reduction in the corporation's income tax liabilities through installment payments.

## **CAPITAL RESOURCES AND LIQUIDITY**

The corporation's principal liquidity needs, which include those of its subsidiaries, over the next twelve months are to:

- fund recurring expenses;
- manage current credit facilities;
- fund the continuing development of its inventory and investment properties;
- fund capital requirements to maintain and enhance the its property, plant and equipment;
- fund investing activities, which may include:
  - property acquisitions;
  - note repayments;
  - discretionary capital expenditures; and
- make distributions to its sole shareholder.

The corporation believes that its liquidity needs will be satisfied using cash and cash equivalents on hand, available unused credit facilities, increased credit facility borrowing limits, and cash flows generated from operating and financing activities.

Beyond twelve months, the corporation's principal liquidity needs, including those of its subsidiaries, are credit facility repayments, note repayments, recurring and non-recurring capital expenditures, development costs and potential property acquisitions. The corporation plans to meet these needs through one or more of the following:

- cash flows from operations;
- proceeds from the sale of assets; and
- credit facilities and refinancing opportunities.

At June 30, 2015, the corporation had approximately \$25.1 of cash on hand, and \$140.0 of cash equivalents consisting of term deposits maturing in 42 days and deposit certificates redeemable at any time.

## **RISKS**

The corporation's financial results are affected by the performance of its operations and various external factors influencing the specific sectors and geographic locations in which it operates, as well as macroeconomic factors such as economic growth, inflation, interest rates, regulatory requirements and initiatives, and litigation and claims that arise in the normal course of business.

The following is a review of the material factors and the potential impact these factors may have on the corporation's business operations.

### **General macroeconomic risks**

Real Gross Domestic Product growth is projected by the Bank of Canada to average close to 2½ % over the next year before slowing gradually to around 2% by the end of 2016, roughly the estimated growth rate of potential output.

### **Real Estate sector related risks**

Real estate is generally subject to risk given its nature, with each property being subject to risks depending on its specific nature and location. Certain significant expenditures, including property taxes, maintenance costs, insurance costs, and related charges, must be made regardless of what the economic conditions surrounding the property, but the timing of other significant expenditures is discretionary and can be deferred. In the housing market, economic conditions in Canada are projected by Canadian Mortgage and Housing Corporation (CMHC) to gradually improve in 2015, leading to modest increases in employment, disposable income and housing demand. Housing starts in 2015 are anticipated to be similar to 2014 with 183,100 units. The housing starts forecast for 2015 are 163,000 to 203,200 units.

Delving deeper, Canada's housing market is expected to be supported by improving economic conditions translating to higher employment and income growth. Overall market conditions remain balanced and according to CMHC, house prices are generally in line with underlying demographic and economic factors. While there are some indicators that suggest some modest overvaluation, this is not a concern given the strong underlying factors that support the housing market. The outlook for the Canadian housing sector is moderation, anticipated to experience a marginal decline.

In media reports, the Bank of Canada has suggested that an oil price below US \$70 per barrel for an extended period would lead to much lower economic activity in Alberta. This would lead to slower job creation and population growth within the province, both of which are critical to a robust residential real estate market. During the 2008 economic correction, housing starts in Edmonton and Calgary declined by 50% and 30%, respectively.

### **Hospitality and Tourism sector related risks**

The CN Tower's and Old Port's operations have been directly linked to the performance of the tourism sector in Toronto and Montréal, respectively. The number of visitors to the CN Tower is also related to both the seasons and daily weather conditions. Recognizing and acting upon the potential of both attracting a higher percentage of Toronto's tourists and focusing less on seasonal corporate business will further enhance the performance of the CN Tower's business development initiatives.

At Old Port the number of visitors is a significant factor in its results. These factors include the local and global economy, weather conditions, travel costs and trends in international tourism. Old Port mitigates these risks by actively managing and adjusting its advertising spend, and by hosting new attractions and events, while also focusing on existing major events, to increase the total number of visitors.

### **Interest rate and Financing risks**

The corporation believes it has effectively managed its interest rate risk. The corporation's notes payable are non-interest bearing, and repayable on the earlier of their due dates between 2015 to 2050 or the dates which net proceeds become available from the sale by the corporation of the properties in respect of which the notes were issued, except in a limited number of instances where the terms of the note state when the issuer can demand payment and are not dependent on property cash flows. The corporation believes that these financing instruments adequately mitigate its exposure to interest rate fluctuations. The corporation believes that the repayment terms of its notes, in conjunction with management's estimated cash flows from projects, will adequately provide it with proceeds to discharge the notes on their due dates at a minimum.

## **Credit Risk**

Credit risk arises from the possibility that tenants and purchasers may experience financial difficulty and be unable to pay the amounts owing under their commitments.

The corporation has attempted to reduce the risk of credit loss by limiting its exposure to any one tenant or industry and doing credit assessments in respect of new leases and credit transactions. Also, this risk is further mitigated by signing long-term leases with varying lease expirations. Credit risk on land sale transactions is mitigated by recourse to the underlying property until the purchaser has satisfied all financial conditions of the sale agreement.

The corporation's trade receivables are comprised almost exclusively of current balances owing. The corporation continues to monitor receivables frequently, and where necessary, establish an appropriate provision for doubtful accounts. At June 30, 2015, the balance of rent and other receivables was \$20.4 (March 31, 2015 - \$20.6).

The corporation has long-term interest bearing receivables of \$59.7 (March 31, 2015 - \$17.7) arising from the sale of properties. The weighted average rate for fixed rate mortgages is 0.98% (March 31, 2015 - 4.34%). All long-term receivables are covered by collateral mortgages where the underlying fair value of the property is greater than the long-term receivable balance at June 30, 2015.

The corporation also has long-term receivables of \$49.9 due from its partners in Vancouver land acquisitions. The long-term receivables are non-interest bearing and payable out of cash flows from the joint ventures. The projected cash flows from the joint ventures are significantly higher than the amount of the long-term receivables at June 30, 2015.

## **Environmental Risks**

As the owner of real property, the corporation is subject to various federal, provincial and municipal laws relating to environmental matters. Such laws provide that the company could be liable for the costs of removing certain hazardous substances and remediating certain hazardous locations. The failure to remove or remediate such substances or locations, if any, could adversely affect the corporation's ability to sell such real estate. The corporation is not aware of any material non-compliance with environmental laws at any of its properties, nor is it aware of any investigations or actions pending or anticipated by environmental regulatory authorities in connection with any of its properties or any pending or anticipated claims related to environmental conditions at its properties.

The corporation will continue to make the capital and operating expenditures necessary to ensure that it is compliant with environmental laws and regulations.

## **Infrastructure Risks**

Old Port operates certain structures under operating leases with the Port of Montréal. The leases contain a clause which stipulates upon expiry of the lease, the owner will retake control of these structures without providing compensation for any additions or modifications made by Old Port to the initial structures, provided that the owner considers them to be in satisfactory condition. To date, all changes made to the structures by Old Port have met the owner's requirements.

## **Guarantees and contingent liabilities**

The corporation may be contingently liable with respect to litigation and claims that arise in the normal course of business. The corporation's holdings and potential acquisition of properties from the government are impacted by Aboriginal land claims. The corporation continues to work with various government agencies and organizations to assist in establishing a process whereby such surplus lands could be transferred to the corporation. Disclosure of commitments and contingencies can be found in Note 12 and 13 of consolidated financial statements for the quarter ended June 30, 2015.

## **Related Parties**

The corporation is wholly owned by the Government of Canada and is under common control with other governmental agencies and departments, and Crown corporations. The corporation enters into transactions with these entities in the normal course of business.

Significant transactions with related parties during the quarter were as follows:

For the quarter ended June 30	2015		2014
Rental, leasing and other revenues	\$	0.6	\$ 0.9
Expenses incurred for various services received		-	2.7
Cash acquisition of real estate properties	\$	-	\$ 3.8

The Consolidated Statement of Financial Position includes the following balances with related parties:

	As at	June 30, 2015	March 31, 2015
Net trade receivables and other from federal agencies and departments, excluding government funding payable	\$	0.4	\$ 0.5
Government funding payable		-	1.0
Notes payable		274.8	273.0

## CRITICAL ACCOUNTING ESTIMATES

The discussion and analysis of the financial condition and financial performance of the corporation is based on the consolidated financial statements, which are prepared in accordance with IFRS. The preparation of consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities and the reported amounts of revenues and expenses for the periods of the consolidated financial statements. Judgments, estimates and assumptions are evaluated on an ongoing basis. Estimates are based on historical experience and other assumptions that management believes are reasonable and appropriate in the circumstances. Actual results could differ materially from those assumptions and estimates.

Management believes the most critical accounting estimates are as follows:

### i. Inventories and real estate cost of sales

In determining estimates of net realizable values for its properties, the corporation relies on assumptions regarding applicable industry performance and prospects, as well as general business and economic conditions that prevail and are expected to prevail. Assumptions underlying asset valuations are limited by the availability of reliable comparable data and the uncertainty of predictions concerning future events. Due to the assumptions made in arriving at estimates of net realizable value, such estimates, by nature, are subjective and do not necessarily result in a precise determination of asset value.

In arriving at such estimates of net realizable value of the properties, management is required to make assumptions and estimates as to future costs which could be incurred in order to comply with statutory and other requirements. Also, estimates of future development costs are used to allocate current development costs across project phases. Such estimates are, however, subject to change based on agreements with regulatory authorities, changes in laws and regulations, the ultimate use of the property, and as new information becomes available.

The corporation produces a yearly corporate plan that includes a proforma analysis of the projects, including expected revenues and projected costs. This analysis is used to determine the cost of sales recorded and net realizable value. This proforma analysis is reviewed periodically, and when events or circumstances change, and is then updated to reflect current information.

### ii. Measurement of Fair Values

Where the fair values of financial assets, investment properties and financial liabilities as disclosed in the notes to the consolidated financial statements cannot be derived from active markets, they are determined using valuation techniques, including discounted cash flow models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. The judgments include consideration of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value. The corporation's assessments of fair values of investment properties are regularly reviewed by management with the use of independent property appraisals and internal management information.

The fair value of all financial instruments and investment properties must be classified in fair value hierarchy levels, which are as follows:

Level 1 (L1) – Financial instruments are considered Level 1 when valuation can be based on quoted prices in active markets for identical assets or liabilities.

Level 2 (L2) – Financial instruments are considered Level 2 when valued using quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or models using inputs that are observable.

Level 3 (L3) – Financial instruments are considered Level 3 when their values are determined using pricing models, discounted cash flow methodologies or similar techniques and at least one significant model assumption or input is unobservable.

The critical estimate and assumptions underlying the valuation of financial assets, investment properties and financial liabilities are set out in the financial statements in notes 5 and 22 of the financial statements.

### **iii. Significant Components and Useful Lives**

The useful lives and residual values of the corporation's assets are determined by management at the time the asset is acquired and reviewed annually for appropriateness. The useful lives are based on historical experience with similar assets, as well as anticipation of future events. Management also makes judgments in determining significant components. A component or part of an item of property, plant and equipment or an investment property is considered significant if its allocated cost is material in relation to the total cost of the item. Also, in determining the parts of an item, the corporation identifies parts that have varying useful lives or consumption patterns.

### **iv. Interest Rate on Notes Payable to the Government**

Notes payable are issued in consideration of the acquisition of real estate properties and are due to the Government of Canada. These notes are repayable on the earlier of their due dates or the dates on which net proceeds become available from the sale by the corporation of the properties in respect of which the notes were issued, except in a limited number of instances where the terms of the note state when the issuer can demand payment and are not dependent on property cash flows. For those notes that do not state when the issuer can demand payment, the repayment schedule is based on estimates of the time period and cash flows of the property. The notes are non-interest bearing. The non-interest bearing notes are discounted using an imputed fixed interest rate. The imputed interest is accrued and capitalized to properties or expensed, as appropriate.

### **v. Impairments and write-downs**

Management reviews assets annually, as part of the corporate planning process, and when events or circumstances change.

For inventories, a write-down is recorded when the net realizable value of anticipated net sales revenue is less than the sum of the book value of the property and its anticipated costs to complete. The net realizable value is based on projections of future cash flows, which take into account the specific development plans for each project and management's best estimate of the most probable set of economic conditions anticipated to prevail in the market.

For other assets, such as investment properties and property, plant and equipment, impairment estimates are made based on analysis of cash-generating units as described in note 2f) of the consolidated financial statements and are recorded if the recoverable amount of the property is less than the book value. The recoverable amount is the higher of an asset's (or cash-generating unit's) fair value less costs of disposal and its value in use. The corporation estimates the fair value less costs of disposal using the best information available to estimate the amount it could obtain from disposing of the assets in an arm's-length transaction, less the estimated cost of disposal. The corporation estimates value in use by discounting estimated future cash flows to their present value using a pre-tax rate that reflects current market assessments of the time value of money and the specific risks of the asset. The determination of the present value of estimated cash flows requires significant estimates, such as future cash flows and the discount rate applied.

### **vi. Income Taxes**

The corporation relies on estimates and assumptions when determining the amount of current and deferred tax, and takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due.

## **Cash Flows**

Cash and cash equivalents provided by operating and investing activities totaled \$17.4 for the period. During the quarter, the Stanley Green sale close of \$52.9 generated \$4.4 in cash, in addition to the \$4.1 deposit previously received. The remainder of the purchase was financed by a vendor take-back mortgage.

## ACQUISITIONS AND PROSPECTS

On September 30, 2014, the corporation entered into three joint venture agreements with the same third party partner for three separate land parcels in Vancouver (collectively the Vancouver lands) totaling approximately 32 hectares (80 acres). Each of the parcels in the Vancouver lands are jointly controlled by the corporation and its partner with each have a 50% interest in the property. The fair value of the Vancouver lands is approximately \$307 which was funded through non-interest bearing notes payable with principal amounts totaling \$221 and contributed capital by the partner. The corporation is obligated to repay the entire notes payable balance, of which a portion will be partially funded by long-term receivables from the partner. The long-term receivables from the partners will be repaid from cash flows from the joint ventures. The Vancouver lands are accounted for using joint operations accounting and as a result the corporation has consolidated their share of the assets, liabilities, revenues and expenses.

The corporation has a land bank of approximately 548 hectares (1,407 acres) at June 30, 2015.

The corporation is currently in negotiations with government departments and agencies regarding a further acquisition of 3,319 hectares (8,201 acres). As many of the properties and portfolio's potentially available for acquisition are substantial in size, of up to 2,160 hectares (5,300 acres), planning, development and reintegration of these properties into local communities will take place over a number of years. Although the corporation is vulnerable to adverse changes in local real estate market conditions which can affect demand, the corporation's geographic diversity mitigates the risk of an adverse impact of a downturn in a single market.

The corporation's major residential developments are in Newfoundland and Labrador, Nova Scotia, Quebec, Ontario, Alberta and British Columbia, where it is redeveloping the former CFB Toronto, CFB Rockcliffe, CFB Calgary, CFB Griesbach, and CFB Chilliwack, along with various Vancouver properties. In most of these projects, the corporation has interim rental operations which between them generate revenue in excess of any holding costs. In St. John's, Newfoundland and Labrador, the corporation is in the midst of development of Pleasantville on the site of a former military base.

The corporation's recent sales activities demonstrate that there is ongoing demand for its land holdings and it can continue to create significant benefits and/or value from its property portfolio, which is diverse as to location, value, size and current or potential uses.

The corporation has estimated income before tax of \$258.6 for the five years ending March 31, 2020 based on the approved Annual Corporation Plan. The corporation expects to continue to be financially self-sufficient and provide a reliable dividend stream for the Government of Canada, as evidenced by its current period \$10.0 dividend payment.

## Declaration

We, John McBain, President and Chief Executive Officer, and Jurgen Dirks, Executive Vice President Corporate Services and Chief Financial Officer, certify that:

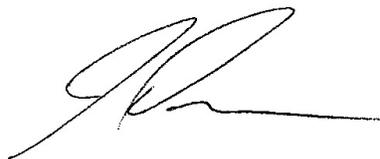

We have reviewed the consolidated financial statements of Canada Lands Company Limited for the period ended June 30, 2015.

Based on our knowledge, the consolidated financial statements do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the fiscal period covered by this report; and

Based on our knowledge, the consolidated financial statements together with the other financial information included in this report fairly present in all material respects the financial position, financial performance and cash flows of Canada Lands Company Limited, as of the date and for the periods presented in this report.

John McBain  
President and Chief Executive Officer

Jurgen Dirks  
Executive Vice President Corporate Services  
and Chief Financial Officer

## Management's Responsibility For Financial Reporting

The consolidated financial statements of Canada Lands Company Limited (the corporation) have been prepared by management of the corporation in accordance with International Financial Reporting Standards.

Management maintains financial and management reporting systems which include appropriate controls to provide reasonable assurance that the corporation's assets are safeguarded, to facilitate the preparation of relevant, reliable and timely financial information, and to ensure that transactions are in accordance with Part X of the Financial Administration Act and regulations, the Canada Business Corporations Act, and the articles and by-laws of the corporation.

Based on our knowledge, these consolidated financial statements present fairly, in all material respects, the corporation's financial position as at June 30, 2015 and March 31, 2015 and its financial performance and cash flows for the periods ended June 30, 2015 and 2014.

Where necessary, management uses judgment to make estimates required to ensure fair and consistent presentation of this information.

The Board of Directors of Canada Lands Company Limited is composed of seven directors, none of whom are employees of the corporation. The Board of Directors has the responsibility to review the financial statements, as well as overseeing management's performance of its financial reporting responsibilities. An Audit Committee appointed by the Board of Directors of the corporation has reviewed these consolidated financial statements with management, and has reported to the Board of Directors. The Board of Directors has approved the consolidated financial statements.

All other financial and operating data included in the report are consistent, where appropriate, with information contained in the consolidated financial statements.

John McBain  
President and Chief Executive Officer

Jurgen Dirks  
Executive Vice President Corporate Services  
and Chief Financial Officer

Toronto, Canada

(Expressed in 000's of Canadian dollars)

For the period ended June 30, 2015

## **I. Authority and Activities of CLCL**

Canada Lands Company Limited (CLCL or the corporation) became an agent Crown corporation in 2003 pursuant to Governor in Council approval (order-in-council number P.C. 2003-1306). The Government of Canada is CLCL's ultimate controlling parent. Originally named Public Works Lands Company Limited, CLCL was incorporated under the Companies Act in 1956 and was continued under the Canada Business Corporations Act. It is listed as a parent Crown corporation in Part I of Schedule III to the Financial Administration Act (FAA).

CLCL is the parent company of Canada Lands Company CLC Limited (Canada Lands), Parc Downsview Park Inc. (Downsview Park) and the Old Port of Montréal Corporation Inc. (Old Port).

CLCL conducts its real estate business operations through Canada Lands and Downsview Park, its principal wholly-owned subsidiaries. CLCL's objective is to carry out a commercially oriented and orderly disposal program of certain real properties of the Government of Canada (the government) and the management of certain select properties. In undertaking this objective, Canada Lands and Downsview Park may manage, develop and dispose of real properties, either in its capacity as owner or on behalf of the government. CLCL conducts its hospitality and tourism operations through Canada's National Tower (CN Tower), owned by Canada Lands, and Old Port.

In December 2014, CLCL, together with a number of other Crown corporations, was issued a directive (P.C. 2014-1379) pursuant to Section 89 of the FAA entitled "Order directing Canada Lands Company Limited to implement pension plan reforms". This directive is intended to ensure that pension plans of crown corporations provide a 50:50 current service cost-sharing ratio between employees and employer for pension contributions to be phased in for all members by December 31, 2017. The corporation's implementation strategy will be outlined in its corporate plans until commitments under this directive are fully implemented.

The registered office of the corporation is 1 University Avenue, Suite 1200, Toronto, Ontario, M5J 2P1.

The condensed consolidated interim financial statements were approved by the Board of Directors on August 25, 2015.

## **2. Summary of Significant Accounting Policies**

### **a) Statement of Compliance**

The condensed consolidated interim financial statements of the corporation have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

### **b) Basis of Presentation**

CLCL's condensed consolidated interim financial statements (the consolidated financial statements) have been prepared on a historical cost basis, except where otherwise indicated. The consolidated financial statements are prepared on a going concern basis and have been presented in Canadian dollars, the corporation's functional currency, rounded to the nearest thousand. The accounting policies set out below have been applied consistently in all material respects to all periods presented in these consolidated financial statements, unless otherwise stated. These consolidated financial statements should be read in conjunction with CLCL's audited financial statements for the year ended March 31, 2015.

### **c) Basis of Consolidation**

The consolidated financial statements include the accounts of the corporation and its consolidated subsidiaries, which are the entities over which the corporation has control. Control exists if the investor possesses power over the investee, has exposure to the variable returns from its involvement with the investee and has the ability to use its power over the investee to affect its returns. The accounts of Canada Lands, Downsview Park and Old Port, wholly-owned subsidiaries of CLCL, are consolidated with CLCL's accounts.

The Montréal Science Centre Foundation (MSCF) and Downsview Park Foundation (DPF) are two structured entities that are consolidated as the corporation has concluded that it controls them. The DPF was created to assist with the development of Downsview Park by generating financial support and gifts from corporations and the public. The MSCF is a not-for-profit organization founded in 2000. It manages the funds and fund-raising activities for the sole benefit of the Montréal Science Centre. The MSCF must remit all funds to Old Port to be used for activities of the Montréal Science Centre.

When the corporation has less than a majority of the voting or similar rights of an investee, the corporation considers all relevant facts and circumstances in assessing whether it controls the investee.

The corporation re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements that constitute control. Consolidation of a subsidiary begins when the corporation obtains control over the subsidiary and ceases when the corporation loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the Consolidated Statement of Comprehensive Income from the date the corporation gains control until the date the corporation ceases to control the subsidiary.

When necessary, adjustments are made to subsidiaries to bring their accounting policies into line with the corporation's accounting policies.

All inter-company transactions, balances, unrealized losses and unrealized gains on transactions between CLCL, its subsidiaries and the two foundations noted above have been eliminated.

#### **d) Revenue Recognition**

The corporation recognizes revenue as follows:

##### **i) Real estate sales**

i) Sales revenues are recognized at the time that the risks and rewards of ownership have been transferred, possession or title of the property passes to the purchaser, and all material conditions of the sales contract have been met, with receipt of at least 15% of the total proceeds.

##### **ii) Rental**

The corporation has retained substantially all of the risks and benefits of ownership of its investment properties and therefore accounts for leases with its tenants as operating leases. The corporation also leases certain property classified as property, plant and equipment to tenants. Revenue recognition under a lease commences when the tenant has a right to use the leased asset. Generally, this occurs on the lease inception date or, where the corporation is required to make additions to the property in the form of tenant improvements which enhance the value of the property, upon substantial completion of those improvements. Tenant improvements provided in connection with a lease are recognized as an asset and expensed on a straight-line basis over the term of the lease. The total amount of contractual rent to be received from operating leases is recognized on a straight-line basis over the term of the non-cancellable portion of the leases and any further terms, at the lessee's option, that are reasonably certain to be exercised, for leases in place; a straight-line rent receivable, which is included in trade receivables and other, is recorded for the difference between the rental revenue recorded and the contractual amount received.

Rental revenue also includes percentage participating rents and recoveries of operating expenses, including property taxes. Operating expense recoveries are recognized in the period that recoverable costs are chargeable to tenants.

##### **iii) Rental from incidental activities**

In addition to earning rental revenues from leases associated with investment properties, the corporation also earns rental revenues from lease arrangements with tenants on certain commercial and residential development properties in inventory. These lease arrangements are generally short term and renewable on an annual basis and considered incidental to the related land development activities. As described in note 2n)i), the corporation has applied judgment in determining that the commercial and residential development properties from which rental from incidental activities is derived are classified and carried as inventory instead of investment property. The revenue recognition policy for the related lease arrangements is consistent with the policy applied in lease arrangements of investment properties, as described in note 2d)ii).

##### **iv) Attractions, food, beverage and other hospitality**

Revenues from programming and parking, ticket sales, food and beverage sales, event and concessions sales, hospitality revenues, sports facilities, retail store sales and other revenues are recognized at point of sale or when services are provided, as appropriate.

**v) Donations and sponsorships**

The corporation, through its subsidiaries, has signed agreements with a number of sponsors that provide cash, products, advertising and other services in exchange for various benefits, including exclusive marketing rights and visibility. Donations and sponsorships are recognized in the period to which they relate in interest and other revenues in the Consolidated Statement of Comprehensive Income. Non-monetary transactions are recorded at fair value.

Donations and sponsorships restricted by the donor or sponsor for specific uses are initially recorded under deferred revenues and recognized as revenue when the conditions have been met.

**vi) Government funding**

The corporation, through its subsidiary Old Port, received funding in the form of parliamentary appropriations from the government of Canada in prior years, which was intended to be used during the year in which the funds were granted, failing which the corporation could be required to repay the unused portion.

This requirement constitutes a stipulation as to how the corporation must use the resources transferred to it or measures that it must take to maintain the transfer. Unspent amounts were recorded as a deferred liability as government funding, and have been used in the current year to acquire property, plant and equipment.

Government funding used to acquire property, plant and equipment is recorded as a reduction of the cost of the asset to which it relates, with any depreciation calculated on the net amount.

Funding from the government is recognized at its fair value where there is reasonable assurance that the funding will be received and the corporation will comply with all attached conditions.

**e) Pre-acquisition costs**

Costs incurred on properties that the corporation has no title to or early use agreement for are expensed to the Consolidated Statement of Comprehensive Income.

**f) Properties****i) Property, Plant and Equipment**

Property, plant and equipment (PPE) includes properties held for use in the supply of goods and services or administrative purposes. All PPE is stated at historical cost less depreciation and any impairment. Historical cost includes expenditures that are directly attributable to the acquisition of the items.

Borrowing costs incurred for the purpose of acquiring, constructing or producing a qualifying PPE are capitalized. A qualifying PPE is an asset that necessarily takes a substantial period of time to get ready for its intended use. Borrowing costs are capitalized while acquisition, construction or production is actively underway. The amount of borrowing costs capitalized during the year was immaterial.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the corporation and the cost of the item can be measured reliably. The carrying amount of those parts that are replaced is derecognized. All other repairs and maintenance are charged to the Consolidated Statement of Comprehensive Income during the financial period in which they are incurred.

Depreciation, based on a component approach, is calculated using the straight-line method to allocate the cost over the assets' estimated useful lives, as follows:

Foundations, structure and walls	13 - 75 years
Site works	10 years
Mechanical	8 - 25 years
Electrical	8 - 30 years
Building equipment	12 - 26 years
Heating and ventilation	8 - 15 years
Elevators & escalators	11 - 26 years
Specialty equipment	10 - 20 years
Roof covering	15 - 25 years
Building finishes	7 - 20 years
In-place leasing costs	10 years
Office equipment and computer software and hardware	3 - 7 years
Catering, hospitality and entertaining equipment	3 - 15 years
Leasehold improvements	15 - 25 years or term of lease
Park fixtures	5 years
Land improvements - other	10 years
Roadways / driveways	25 years
Services (underground piping, etc.)	50 years
Building, quays and structures	15 - 40 years
Amenities and facilities related to land	15 - 25 years
Signage	4 - 10 years
Urban furniture	15 - 25 years
Automotive equipment	5 years
Machinery, tooling and equipment	3 - 25 years
Exhibitions	Depending on duration of exhibition

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, on an annual basis.

The corporation holds some buildings for dual purposes, where a portion is leased to tenants and the remainder is used by the corporation for administrative purposes. When a significant portion is owner-occupied, the corporation classifies the property as PPE.

## ii) Investment Properties

Investment properties are properties held by the corporation for the purpose of obtaining rental income or capital appreciation, or both, but not for the ordinary course of business. Investment properties also include properties that are being constructed or developed for future use as investment properties.

The corporation applies the cost model in which investment properties are valued under the same basis as property, plant and equipment (note 2f)i)), except where the asset meets the criteria to be classified as held for sale; then the asset is measured in accordance with IFRS 5, " Non-current assets held for sale and discontinued operations " .

The depreciation rates for property, plant and equipment are also applicable to investment properties.

From commencement of commercial development until the date of completion, the corporation capitalizes direct development costs, realty taxes and borrowing costs that are directly attributable to the project. Also, initial direct leasing costs incurred by the corporation in negotiating and arranging tenant leases are added to the carrying amount of investment property. In management's view, completion occurs upon completion of construction and receipt of all necessary occupancy and other material permits. Depreciation commences upon completion of commercial development and is based on a component approach discussed in detail in note 2f)i).

**iii) Inventories**

Property acquired or being constructed for sale in the ordinary course of business, rather than held for rental or capital appreciation, is held as inventory and is measured at the lower of cost and net realizable value. Costs are allocated to the saleable acreage of each project or subdivision in proportion to the anticipated revenue or current average cost per acre. Inventories are written down to their net realizable value (NRV) whenever events or changes in circumstances indicate that their carrying value exceeds their NRV. Write-downs are recognized in the Consolidated Statement of Comprehensive Income. NRV is based on projections of future cash flows, which take into account the specific development plans for each project and management's best estimate of the most probable set of economic conditions anticipated to prevail in the market.

The corporation capitalizes all direct expenditures incurred in connection with the acquisition, development and construction of inventory. These include: freehold and leasehold rights for land, amounts paid to contractors for construction, borrowing costs, planning and design costs, costs of site preparation, professional fees for legal services, property transfer taxes, property taxes, construction overheads and other related costs. Selling costs such as commissions and marketing programs are expensed when incurred.

The development period commences when expenditures are being incurred and activities necessary to prepare the asset for its intended use are in progress. Capitalization ceases when the asset is ready for its intended use. During the development phase, any rental revenues and associated expenses related to the project are recognized in the Consolidated Statement of Comprehensive Income (note 2d)iii) during the period. Costs incurred on properties that the corporation has no title to or early use agreement for are expensed to the Consolidated Statement of Comprehensive Income.

Inventories are considered current assets when active development begins or when property has been serviced. Properties undergoing active development are classified as "properties under development", whereas properties that have been serviced and are ready for sale, or that the corporation intends to sell in their current state without any further significant costs to be incurred, are classified as "properties held for sale". Properties classified as "properties held for future development" are considered non-current.

Non-property (i.e. operating) inventories are almost entirely held by the CN Tower, Downsview Park and Old Port, and are included in trade receivables and other in the Consolidated Statement of Financial Position.

**g) Interest in Joint Arrangements**

Investments in joint arrangements are classified as either joint operations or joint ventures, depending on the contractual rights and obligations of each investor. A joint operation is a joint arrangement whereby the parties that have joint control have rights to the assets and obligations for the liabilities relating to the arrangement, whereas a joint venture is a joint arrangement whereby the parties that have joint control only have rights to the net assets of the arrangement. When making this assessment, the corporation considers the structure of the arrangement, the legal form of any separate vehicles, the contractual terms of the arrangement and other facts and circumstances. The corporation evaluates its involvement in each of its joint arrangements individually to determine whether each should be accounted for using joint operation accounting or the equity method, depending on whether the investment is defined as a joint operation or a joint venture (see note 22).

**h) Impairment of Financial and Non-Financial Assets****i. Impairment of financial assets**

The corporation assesses, at each reporting date, whether there is objective evidence that a financial asset or a group of financial assets is impaired. An impairment exists if one or more events that has occurred since the initial recognition of the asset (an incurred 'loss event') has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that a debtor or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization, and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

The amount of any impairment loss identified is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate.

**ii. Trade receivables and other**

The carrying amount of the asset is reduced through the use of an allowance account and the loss is recognized in the Consolidated Statement of Comprehensive Income. Trade receivables and other, together with the associated allowance, are written off when there is no realistic prospect of future recovery and all collateral has been realised or has been transferred to the corporation. If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is increased or reduced by adjusting the allowance account. If a write-off is later recovered, the recovery is credited to financing costs in the Consolidated Statement of Comprehensive Income.

**iii. Impairment of non-financial assets**

The corporation assesses, at each reporting date, whether there is an indication that a non-financial asset may be impaired. If any indication exists, the corporation estimates the asset's recoverable amount (note 2f)). An asset's recoverable amount is the higher of an asset's fair value less costs of disposal and its value in use. When it is not possible to estimate the recoverable amount of an individual assets the corporation estimates the recoverable amount of the cash-generating unit to which the asset belongs. When the carrying amount of an asset (or cash-generating unit) exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

For non-financial assets, an assessment is made at each reporting date to determine whether there is an indication that previously recognized impairment losses no longer exist or have decreased. If such indication exists, the corporation estimates the recoverable amount of the asset (or cash-generating unit). A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the Consolidated Statement of Comprehensive Income.

**i) Cash and Cash equivalents**

Cash and cash equivalents include cash and short-term, highly liquid investments, such as money market funds and term deposits, with original maturities at the date of purchase of three months or less, and deposit certificates which are redeemable at any time and mature less than 12 months from the transaction date.

**j) Income Taxes**

Income tax comprises current and deferred tax. Income tax is recognized in the Consolidated Statement of Comprehensive Income except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity.

Current tax is the expected tax payable on taxable income for the year, using tax rates enacted or substantively enacted at the Consolidated Statement of Financial Position dates, and any adjustment to tax payable in respect of previous years.

Deferred tax is reported using the balance sheet liability method, providing for temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax reported is based on the expected manner of realization or settlement of the carrying amounts of the assets and liabilities, using tax rates enacted or substantively enacted at the Consolidated Statement of Financial Position dates. A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

**k) Financial Instruments**

The following summarizes the corporation's classification and measurement of financial assets and liabilities:

	Classification	Measurement
<b>Financial Assets</b>		
Trade receivables and other	Loans and receivables	Amortized cost
Long-term receivables	Loans and receivables	Amortized cost
Cash and cash equivalents	Loans and receivables	Amortized cost
<b>Financial Liabilities</b>		
Credit facilities	Other financial liabilities	Amortized cost
Notes payable	Other financial liabilities	Amortized cost
Trade and other payables	Other financial liabilities	Amortized cost

### **i. Financial Assets**

Financial assets are classified, at initial recognition, as financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, or available-for-sale financial assets, as appropriate. All financial assets are recognized initially at fair value. After initial recognition, financial instruments are measured at their fair values, except for held-to-maturity investments and loans and receivables, which are measured at amortized cost.

#### Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial recognition, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method, less any impairments.

### **ii. Financial liabilities**

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss or other financial liabilities, as appropriate. All financial liabilities are recognized initially at fair value.

#### Other financial liabilities

After initial recognition, other financial liabilities are subsequently measured at amortized cost using the EIR method.

## **I) Provisions**

A provision is a liability of uncertain timing or amount. Provisions are recognized when the corporation has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount can be reliably estimated. If the effect of the time value of money is material, the provisions are measured at the present value. The provisions are determined by discounting the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to the passage of time is recognized in financing cost.

#### Decommissioning costs

A provision for decommissioning obligations in respect of buildings and land containing hazardous materials is recognized when the environment is disturbed; it is more likely than not that the corporation will be required to settle the obligation; an obligation is owed to another party; and a reasonable estimate of the future costs and discount rates can be made. These obligations are recognized in the period they are incurred at the present value of the best estimate of the expenditures required to settle the present obligation, discounted at a risk-free interest rate. Subsequently, at each reporting date, the obligation is adjusted through an unwinding of discount expense, and any changes in the estimated amounts required to settle the obligation and significant changes in the discount rate, inflation and risks. The associated costs are capitalized as part of the carrying value of the related assets.

The corporation assesses all of its activities and all of its sites and facilities involving risks to determine potential environmental risks. Sites and facilities considered to represent an environmental risk are examined in detail and corrective measures have been or will be taken, as necessary, to eliminate or mitigate these risks. The ongoing risk management process currently in place enables the corporation to examine its activities and property under normal operating conditions and to follow up on

accidents that occur. Properties that may be contaminated, or any activities or property that may cause contamination, are taken charge of immediately as soon as contamination is noted, under an action plan developed to assess the nature and extent of the repercussions as well as the applicable requirements.

#### Payment in lieu of taxes and legal claims

A provision for payment in lieu of taxes (PILT) and legal claims is recognized when management believes there is a present obligation as a result of a past event; it is more likely than not that the corporation will be required to settle the obligation; and a reliable estimate can be made of the amount of the obligation.

### **m) Critical Judgments in Applying Accounting Policies**

In the process of applying the corporation's accounting policies, management has made the following critical judgments which have the most significant effect on the amounts recognized in the consolidated financial statements:

#### **i. Inventories**

The corporation's policies related to property inventories are described in note 2f)iii). In applying these policies, the corporation makes judgments with respect to the classification of certain inventory properties.

The operating cycle for inventories frequently exceeds twelve months as a result of development lead times and market conditions. The corporation classifies inventories as current, regardless of the length of the development time, when active development begins or when the property has been serviced or sold as is.

#### **ii. Investment properties**

The corporation's accounting policies are described in note 2f)ii). In applying these policies, judgment is made for investment properties under development in determining when the property has reached completion.

#### **iii. Leases**

The corporation's policy on revenue recognition is stated in note 2d)ii). With regards to this policy, the corporation must consider whether a tenant improvement provided in connection with a lease enhances the value of the leased property in order to determine whether such amounts are treated as additions to investment property. Tenant improvements provided in connection with a lease are recognized as an asset and expensed on a straight-line basis over the term of the lease.

The corporation also makes judgments in determining whether certain leases, especially long-term leases in which the tenant occupies all or a major part of the property, are operating or finance leases.

#### **iv. Provisions**

The corporation's policies related to provisions are described in note 2l). In applying these policies, the corporation makes judgments with respect to the best estimates of probability, timing and measurement of expected value of its outcome.

#### **v. Income taxes**

The corporation is subject to income taxes in numerous Canadian jurisdictions and significant judgment is required in determining the provision for income taxes. The corporation recognizes liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the corporation's income tax expense and current and deferred income tax assets and liabilities in the period in which such determinations are made. See note 18 for additional information.

The corporation makes significant judgments on the recoverability of deferred tax assets based on expectations of future profitability and tax planning strategies. Changes in the expectations or the inability to implement the tax planning strategies could result in derecognition of the deferred tax assets in future periods.

#### **vi. Control over structured entities**

The corporation's policy for consolidation is described in note 2c).

The corporation assessed whether or not it controlled the DPF based on whether the corporation has the practical ability to direct the relevant activities of the DPF. In making its judgment, the corporation considered the strict limitations imposed on the DPF's Board by the DPF by-laws over the relevant activities. After assessment, the corporation concluded that, although it

does not have direct control over the relevant activities of the DPF, it does have de facto control over those relevant activities as a result of the strict limitations imposed, and therefore the corporation does have control over DPF.

The corporation assessed whether or not it controlled the MSCF based on whether the corporation has the practical ability to direct the relevant activities of the MSCF. In making its judgment, the corporation considered the composition of the MSCF Board and the power held by the primary directors of the MSCF Board over the MSCF's relevant activities. After assessment, the corporation concluded that, based on the power held by the primary directors, who are officers or directors of CLCL, over the relevant activities of the MSCF, the corporation does have control over the MSCF.

### **vii. Joint arrangements**

The corporation's policy for joint arrangements is described in note 2g). In applying this policy, the corporation makes judgments with respect to whether it has joint control and whether the arrangements are joint operations or joint ventures. In making its judgments, the corporation considered the legal structure and whether or not joint control for decisions over relevant activities existed based on the contractual arrangements. Specifically for the Jericho, West Vancouver and Fairmont joint arrangements, the corporation considered that its third party partners are only required to fund the projects operations and note repayments from cash flows from the projects, and therefore any cash shortfalls are funded by the corporation. After assessment, the corporation has determined that joint control exists, as all decisions over relevant activities require the unanimous consent of both parties, and that all of its joint arrangements are joint operations, as they were not structured through separate vehicle.

## **n) Significant Accounting Estimates and Assumptions**

The preparation of consolidated financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the period. The corporation includes in its liabilities future servicing costs to complete a project based on management's best estimates. Actual results could differ significantly from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. The estimates and assumptions that are critical to the determination of the amounts reported in the consolidated financial statements relate to the following:

### **i. Inventories and real estate cost of sales**

In determining estimates of net realizable values for its properties, the corporation relies on assumptions regarding applicable industry performance and prospects, as well as general business and economic conditions that prevail and are expected to prevail. Assumptions underlying asset valuations are limited by the availability of reliable comparable data and the uncertainty of predictions concerning future events. Due to the assumptions made in arriving at estimates of net realizable value, such estimates, by nature, are subjective and do not necessarily result in a precise determination of asset value.

In arriving at such estimates of net realizable value of the properties, management is required to make assumptions and estimates as to future costs which could be incurred in order to comply with statutory and other requirements. Also, estimates of future development costs are used to allocate current development costs across project phases. Such estimates are, however, subject to change based on agreements with regulatory authorities, changes in laws and regulations, the ultimate use of the property, and as new information becomes available.

The corporation produces a yearly corporate plan that includes a proforma analysis of the projects, including expected revenues and projected costs. This analysis is used to determine the cost of sales recorded and net realizable value. This proforma analysis is reviewed periodically, and when events or circumstances change, and is updated to reflect current information.

### **ii. Measurement of fair values**

Where the fair values of financial assets, investment properties and financial liabilities as disclosed in the notes to the consolidated financial statements cannot be derived from active markets, they are determined using valuation techniques including discounted cash flow models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. The judgments include consideration of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value. The corporation's assessments of fair values of investment properties are regularly reviewed by management with the use of independent property appraisals and internal management information.

The fair values of all financial instruments and investment properties must be classified in fair value hierarchy levels, which are as follows:

Level 1 (L1) – Financial instruments are considered Level 1 when valuation can be based on quoted prices in active markets for identical assets or liabilities.

Level 2 (L2) – Financial instruments are considered Level 2 when valued using quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or models using inputs that are observable.

Level 3 (L3) – Financial instruments are considered Level 3 when their values are determined using pricing models, discounted cash flow methodologies or similar techniques and at least one significant model assumption or input is unobservable.

The critical estimate and assumptions underlying the valuation of financial assets, investment properties and financial liabilities are set out in notes 5 and 21.

### **iii. Significant components and useful lives**

The useful lives and residual values of the corporation's assets are determined by management at the time the asset is acquired and reviewed annually for appropriateness. The lives are based on historical experience with similar assets, as well as anticipation of future events. Management also makes judgments in determining significant components. A component or part of an item of property, plant and equipment or an investment property is considered significant if its allocated cost is material in relation to the total cost of the item. Also, in determining the parts of an item, the corporation identifies parts that have varying useful lives or consumption patterns.

### **iv. Interest rate on notes payable to the Government of Canada**

Notes payable are issued in consideration of the acquisition of real estate properties and are due to the Government of Canada. These notes are repayable on the earlier of their due dates or the dates on which net proceeds become available from the sale by the corporation of the properties in respect of which the notes were issued, except in a limited number of instances where the terms of the note state when the issuer can demand payment and payment is not dependent on property cash flows. For those notes that do not state when the issuer can demand payment, the repayment schedule is based on estimated time period and cash flows of the property. The notes are non-interest bearing. The non-interest bearing notes are discounted using an imputed fixed interest rate. The imputed interest is accrued and capitalized to properties or expensed, as appropriate.

### **v. Impairments and write-downs**

Management reviews assets annually, as part of the corporate planning process, and when events or circumstances change.

For inventories, a write-down is recorded when the net realizable value of anticipated net sales revenue is less than the sum of the book value of the property and its anticipated costs to complete. The net realizable value is based on projections of future cash flows, which take into account the specific development plans for each project and management's best estimate of the most probable set of economic conditions anticipated to prevail in the market.

For other assets, such as investment properties and property, plant and equipment, impairment estimates are made based on an analysis of cash-generating units, as described in note 2f), and are recorded if the recoverable amount of the property is less than the book value. The recoverable amount is the higher of an asset's (or cash-generating unit's) fair value less costs of disposal and its value in use. The corporation estimates the fair value less costs of disposal using the best information available to estimate the amount it could obtain from disposing of the assets in an arm's-length transaction, less the estimated cost of disposal. The corporation estimates value in use by discounting estimated future cash flows to their present value using a pre-tax rate that reflects current market assessments of the time value of money and the specific risks of the asset. Determination of the present value cash flows requires significant estimates, such as future cash flows and the discount rate applied.

### **vi. Income taxes**

The corporation relies on estimates and assumptions when determining the amount of current and deferred tax, and takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due.

## **3. Changes in Accounting Policies and Disclosures and Future Accounting Pronouncements**

### **a. Changes in Accounting Policies and Disclosures**

#### i. Levies

In May 2013, the IASB issued Interpretation 21 *Levies* (IFRIC 21), which provides guidance on accounting for levies

in accordance with IAS 37 *Provisions*. The interpretation defines a levy as an outflow from an entity imposed by a government in accordance with legislation. IFRIC 21 clarifies that a levy is recognized as a liability when the obligating event that triggers payment, as specified in the legislation, has occurred.

#### ii. Financial Instruments: Presentation

IAS 32 *Financial Instruments: Presentation* was amended in December 2011. The amendments address inconsistencies in practice when applying the criteria for offsetting financial instruments by clarifying the meaning of certain terms and settlement systems.

#### iii. Impairment of Assets

IAS 36 *Impairment of Assets* was amended to remove certain disclosures of the recoverable amount of cash-generating units that had been included in IAS 36 by the issuance of IFRS 13.

#### Financial Instruments: Disclosures

IFRS 7 *Financial Instruments: Disclosures* was amended in October 2010. The amendment enhances disclosure requirements to aid financial statement users in evaluating the nature of, and risks associated with an entity's continuing involvement in derecognized financial assets and the offsetting of financial assets and financial liabilities. The amendment is effective for annual periods beginning on or after January 1, 2015, with earlier application permitted.

The corporation adopted these new and revised standards on April 1, 2014 (April 1, 2015 for IFRS 7). The corporation has assessed the impact of adopting these new and revised standards and determined that there is no material impact to the consolidated financial statements.

### **b. Future Accounting Pronouncements**

#### i. Revenue from Contracts with Customers

In May 2014, the IASB issued IFRS 15 *Revenue from Contracts with Customers*, which provides a comprehensive five-step revenue recognition model for all contracts with customers. IFRS 15 requires management to exercise significant judgement and make estimates that affect revenue recognition. IFRS 15 is effective for annual periods beginning on or after January 1, 2017, with earlier application permitted.

#### ii. Financial Instruments

In July 2014, the IASB issued a final version of IFRS 9 *Financial Instruments*, which replaces IAS 39 *Financial Instruments: Recognition and Measurement*, and supersedes all previous versions of the standard. The standard introduces a new model for the classification and measurement of financial assets and liabilities, a single expected credit loss model for the measurement of the impairment of financial assets and a new model for hedge accounting that is aligned with a company's risk management activities. IFRS 9 is effective for annual periods beginning on or after January 1, 2018, with earlier application permitted.

#### iii. Property, Plant and Equipment and Intangible Assets

IAS 16 *Property, Plant and Equipment* and IAS 38 *Intangible Assets* were both amended to clarify acceptable methods of depreciation and amortization. The amendment is effective for annual periods beginning on or after January 1, 2016, with earlier application permitted.

#### iv. Joint Arrangements

IFRS 11 *Joint Arrangements* was amended to provide guidance on the accounting for acquisitions of interests in joint operations in which the activity constitutes a business. The amendment is effective for annual periods beginning on or after January 1, 2016, with earlier application permitted.

The corporation is currently evaluating the impact of adopting this standard on its consolidated financial statements.

#### 4. Property, Plant and Equipment

The corporation's property, plant and equipment consist mainly of the CN Tower, the National Urban Park, the Plaza Garage, the John Street Parkette, the Montréal Science Centre, the Old Port quays, bridges, office building and land, vehicles, exhibitions, and computers and office equipment.

The corporation's accounting policy for government grants used to purchase property, plant and equipment as disclosed in note 2d)vi), is to record the assets net of the grants received. During the period ended June 30, 2015, Old Port had acquisitions of \$1.0 million in property, plant and equipment (June 30, 2014 - \$1.0 million) against which government funding was applied.

The corporation has \$4.7 million (March 31, 2015 - \$1.4 million) of fully depreciated property, plant and equipment still in use.

#### 5. Investment Properties

The corporation's investment properties consist primarily of the land at the Rogers Centre and the CN Tower Base, and rental properties at Downsview Park .

Included within the Consolidated Statement of Comprehensive Income are the following:

For the period ended June 30	2015	2014
Rental income	\$ 1,275	\$ 1,483
Direct operating expenses from investment property that generated rental income during the period	893	918
Direct operating expenses from investment property that did not generate rental income during the period	29	-

<b>Balance, June 30, 2015</b>	<b>\$ -</b>	<b>\$ 4,245</b>	<b>\$ 3,204</b>	<b>\$ 2,252</b>	<b>\$ 1,843</b>	<b>\$ 11,544</b>	

Carrying amounts							
At March 31, 2015	\$ 3,717	\$ 2,243	\$ 2,281	\$ 5,599	\$ -	\$ 13,840	
<b>At June 30, 2015</b>	<b>\$ 4,945</b>	<b>\$ 10,783</b>	<b>\$ 2,944</b>	<b>\$ 10,123</b>	<b>\$ 1,374</b>	<b>\$ 30,169</b>	

There were no write-downs recorded against investment properties during the period ended June 30, 2015 (March 31, 2015 - \$0.6 million).

The fair values of investment properties are classified in fair value hierarchy levels (see note 2n)ii) as follows:

Investment Properties	Carrying Amount	Level 1	Level 2	Level 3
		Fair Value		
June 30, 2015	30,169	0	0	105,700
March 31, 2015	13,840	0	0	83,700

The fair value of the investment properties was estimated using a combination of internal valuation techniques and external consultants at March 31, 2015. All material investment properties have been valued by independent valuers. The external consultants are accredited independent valuers with a recognized and relevant professional qualification and with recent experience in the location and category of the investment property being valued. On a quarterly basis, management reviews the assumptions to update the estimated fair value of the investment properties.

In determining fair value, the income and direct comparison approaches were used. The income approach capitalizes net annual revenues or discounts forecasted net revenues to their present value after considering future rental income streams and anticipated operating costs, as well as appropriate capitalization and discount rates. The direct comparison approach references

market evidence derived from transactions involving similar properties.

Investment properties valued using the income approach are considered Level 3 given the significance of the unobservable inputs.

The key inputs in the valuation of investment properties using the income approach are:

- Capitalization rate: which is based on the market conditions where the property is located;
- Net operating income: which is normalized and assumes rental income and rental costs using current market conditions;
- Discount rate: reflecting the current market assessments of the uncertainty in the amount and timing of cash flows; and
- Discounted cash flows: which consider the location, type and quality of the property and the current market conditions for similar properties.

The direct comparison approach uses observable inputs and is considered level 2, unless there are significant unobservable inputs, in which case it is considered level 3.

## 6. Inventories

The corporation carries its inventories at lower of cost and net realizable value and are classified as follows:

	June 30, 2015	March 31, 2015
<b>Total Current</b>		
Completed Properties Held for Sale	\$ 3,949	\$ 3,947
Property Under Development	173,109	190,076
	<b>177,058</b>	194,023
<b>Total Non-Current</b>		
Properties Held For Future Development Or Sale	146,591	146,300
<b>Total Property Inventories</b>	<b>\$ 323,649</b>	<b>\$ 340,323</b>

There were no write-downs recorded against inventories during the period ended June 30, 2015 (March 31, 2015 - \$7.3 million). There were no reversals of write-downs during the period ended June 30, 2015 (March 31, 2015 - \$nil).

Inventories charged to cost of sales totalled \$48.6 million (June 30, 2014 - \$0.3 million).

At June 30, 2015, the total inventories that are expected to be recovered from sale of the properties by March 31, 2016 are \$98.2 million; and the amounts expected to be recovered after March 31, 2016 are \$225.4 million.

## 7. Long-Term Receivables

Long-term receivables consist of the following:

	June 30, 2015	March 31, 2015
Mortgages (a)	\$ 59,680	\$ 17,654
Receivables from partners (b)	50,091	49,882
	<b>\$ 109,771</b>	<b>\$ 67,536</b>

a) Mortgages bear interest at both variable and fixed rates of interest. Mortgages with fixed rates of interest at closing have principal balances of \$56.7 million (March 31, 2015 - \$12.8 million), yielding a weighted average rate of 0.98% (March 31, 2015 - 4.34%), and are receivable within three years.

Variable rate mortgages have principal balances of \$2.9 million (March 31, 2015 - \$2.9 million), yielding interest rates from prime to prime plus 1%, and are receivable within three years.

b) The long-term receivables from partners represent the partner's proportionate share of the notes payable which is payable

to the corporation. The corporation is obligated for the full amounts of the notes payable for the West Vancouver, Jericho and Fairmont properties (collectively, the Vancouver lands), of which a portion is receivable from its partners. The long-term receivables, similar to the notes payable they are related to, are non-interest bearing and have total principal amounts of \$63.8 million, which have been discounted using a weighted average market interest rate of 2.99%. The long-term receivables do not have specific dates of repayment, but are based on the cash flows of the projects (see note 22).

	June 30, 2015	March 31, 2015
Current	\$ 15,670	\$ 15,622
Non-Current	94,101	51,914
	\$ 109,771	\$ 67,536

Years ending March 31 (remainder of year)	2016	\$ 15,670
	2017	43,072
	2018	2,558
	2019	-
	2020	3,887
	Subsequent years	44,584
		\$ 109,771

## 8. Cash and Cash Equivalents

	June 30, 2015	March 31, 2015
Cash	\$ 25,077	\$ 97,139
Cash Equivalents (a)	140,000	87,000
	\$ 165,077	\$ 184,139

(a) Cash equivalents include term deposits as follows:

	June 30, 2015
1.05% term deposit, maturing July 13, 2015	\$ 60,000
1.05% term deposit, maturing July 27, 2015	20,000
1.18% term deposit, maturing August 11, 2015	60,000
	\$ 140,000

The corporation has \$5.0 million (March 31, 2015 - \$5.6 million) of cash and cash equivalents that are restricted to be used for the Montreal Science Centre.

## 9. Trade Receivables and Other

Trade receivables and other are comprised of the following:

	June 30, 2015	March 31, 2015
Prepays	\$ 5,773	\$ 2,397
Rents and other receivables	20,375	20,568
Inventories		
CN Tower	1,451	1,016
Downsview Park	11	19
Total	\$ 27,610	\$ 24,000
Current	\$ 23,863	\$ 19,613
Non-Current	3,747	4,387
	\$ 27,610	24,000

## 10. Credit facilities

	June 30, 2015	March 31, 2015
(a) \$90 million, unsecured, demand revolving credit facility, bearing interest at rates between 50 basis points and variable banker's acceptance rates plus 45 basis points, due by March 31, 2016.	\$ 69,900	\$ 71,600
(b) \$50 million, senior, unsecured revolving credit facility, bearing interest at rates between 50 basis points and prime plus 50 basis points, due by March 31, 2016.	-	-
Total Credit Facilities	\$ 69,900	\$ 71,600
Current	\$ 69,900	\$ 71,600
Non-Current	-	-
	\$ 69,900	\$ 71,600

a) The borrowings are primarily used to finance the purchase of a portion of the Downsview Park Lands from the Government of Canada and subsequent construction and development. In addition to the borrowings, the corporation has used credit facilities to secure outstanding letters of credit of \$11.0 million (March 31, 2015 - \$11.0 million). The remaining unused credit facility is \$9.1 million at June 30, 2015 (March 31, 2015 - \$7.4 million).

b) The corporation has used this credit facility to secure outstanding letters of credit of \$28.6 million (March 31, 2015 - \$29.1 million). The interest rate on outstanding letters of credit is 50 basis points. The remaining unused credit facility is \$21.4 million (March 31, 2015 - \$20.9 million).

The borrowing limits are reviewed annually with the approval of the Corporate Plan by the Minister of Finance. At June 30, 2015, the corporation was authorized to borrow \$200 million.

## 11. Notes Payable

The notes payable were issued in consideration of the acquisition of real estate properties and are due to the government. These notes are repayable on the earlier of their due dates (2015 to 2050) or six months after the fiscal year end of the corporation in which net proceeds become available from the sale by the corporation of the properties in respect of which the notes were issued. In limited number of instances the terms of the note state when the issuer can demand payment and payment is not dependent on property cash flows. The notes are non-interest bearing. For accounting purposes, the face values of the notes payable are discounted and recorded at their fair value considering the estimated timing of note repayments, which are not fixed, as well as an imputed fixed interest rate determined when the notes are issued, with the exception of one note discussed below. The imputed interest is then accrued and capitalized to inventories or expensed as appropriate, on a constant yield basis at a weighted average rate of 2.73% (March 31, 2015 - 2.73%).

During the period, the interest capitalized was \$0.5 million (June 30, 2014 - \$0.6 million) and the interest expensed was \$1.3 million (June 30, 2014 - \$0.1 million). Based on the anticipated timing of the sale of the real estate properties, principal repayments are estimated to be as follows:

Years ending March 31 (remainder of year)	2016	\$	31,070
	2017		28,236
	2018		23,125
	2019		3,180
	2020		16,342
Subsequent years			230,568
Subtotal		\$	332,521
Less: amounts representing imputed interest			57,725
		\$	274,796
Current		\$	31,070
Non-current			243,726
		\$	274,796

Included in the \$274.8 million from the table above is a note payable of \$19.0 million, which has not been discounted, given the corporation applied predecessor accounting values upon obtaining control of Downsview Park. This note is due to the government in 2050.

## 12. Trade and Other Payables

The components of the trade and other payables are as follows:

	June 30, 2015		March 31, 2015	
Accounts Payable	\$	40,157	\$	32,128
Leases payable		641		732
	\$	40,798	\$	32,860
Current	\$	40,440	\$	32,408
Non-Current		358		452
	\$	40,798	\$	32,860

a) Capital commitments for servicing requirements and other development costs at June 30, 2015 total \$44.6 million (March 31, 2015 - \$42.5 million).

b) Capital commitments for property, plant and equipment at June 30, 2015 total \$3.0 million (March 31, 2015 - \$6.5 million).

c) Capital commitments for investment properties at June 30, 2015 total \$nil (March 31, 2015 - \$nil).

## 13. Provisions and contingent liabilities

		Cost to complete			Total	
		Legal	(a)	PILT (b)		Others (c)
Balance, March 31, 2015	\$	7	\$ 4,976	\$ 4,416	\$ 466	\$ 9,865
Provisions added during the period		-	18,397	723	-	19,120
Provisions applied during the period		-	(71)		(4)	(75)
Provisions reversed during the period		-	(122)		(12)	(134)
<b>Balance, June 30, 2015</b>	<b>\$</b>	<b>7</b>	<b>\$ 23,180</b>	<b>\$ 5,139</b>	<b>\$ 450</b>	<b>\$ 28,776</b>

a) Servicing costs relating to sold properties in the amount of \$23.2 million (March 31, 2015 - \$5.0 million). The costs are estimated to be spent over the next three years. The corporation expects to be reimbursed \$nil (March 31, 2015 - \$0.8 million) from local municipalities and regions. The amounts provided for are based on management's best estimate, taking into consideration the nature of the work to be performed, the time required to complete the work, past experience, and market, development and construction risks.

b) PILT property tax assessments from January 2014 of \$5.1 million (March 31, 2015-\$4.4 million) that are being contested by the corporation.

c) Potential interest expense of \$0.3 (March 31, 2015 - \$0.3 million) million associated with the transition to IFRS.

## Contingencies

As at June 30, 2015, the corporation was involved in claims and proceedings that arise from time to time in the ordinary course of business, including actions with respect to contracts, construction liens, Aboriginal title claims, employment and environmental matters. Based on the information currently available to the corporation, management believes that the resolution of these matters and any liability arising therefrom will not have a significant adverse effect on these consolidated financial statements. However, these matters are subject to inherent uncertainties and their outcome is difficult to predict; therefore, management's view of these matters may change in the future.

The corporation's activities are governed by many federal, provincial and municipal laws and by-laws to ensure sound environmental practices, in particular for the management of emissions, sewage, hazardous materials, waste and soil contamination. Decisions relating to the ownership of real estate assets and any other activity carried on by the corporation have an inherent risk relating to environmental responsibility.

The corporation assesses all of its activities and all of its sites and facilities involving risks to determine potential environmental risks. For the properties and activities that may be significantly contaminated, the corporation has assessed the likelihood of settlement as remote. The corporation has no guarantee that material liabilities and costs relating to environmental issues will not be incurred in the future or that such liabilities and costs will not have significant negative impacts on the corporation's financial situation.

## Decommissioning costs

The corporation operates certain structures under an operating lease. The agreement signed by the parties includes a clause which stipulates that upon expiry of the lease the owner will retake control of these structures without providing any compensation for any additions or modifications made by the corporation to the initial structures, provided that the owner considers them to be in satisfactory condition. According to the corporation, the changes made to the structures since it has had responsibility for management thereof satisfy the lessor's requirements. Accordingly, no liability relating to the retirement of these assets has been recognized in the consolidated financial statements.

## 14. Government Funding

Old Port prepared its consolidated financial statements in accordance with Canadian public sector accounting standards (PSAS). To apply the prospective predecessor values method in order to consolidate Old Port as at the date of change in control of November 29, 2012, CLCL applied all its existing IFRS accounting policies to convert Old Port's PSAS carrying amounts to IFRS.

The corporation has applied its existing accounting policy, which is historical cost less depreciation and impairments, for all of Old Port's immovable property, plant and equipment as at the date of transition. The alignment of the accounting for these assets to CLCL's accounting policies resulted in a reduction in the book value of \$292.2 million, from \$388 million to \$96.0 million at November 29, 2012. Since acquisition by CLCL further property, plant and equipment was acquired and offset against appropriations as disclosed in note 4.

Since its formation, the main part of Old Port's property, plant and equipment was covered by government funding and thus, under CLCL accounting policy for the presentation of such funding, the grants related to assets have been netted against the related assets. As a result, the historical net carrying amounts as at November 29, 2012 for the moveable and immovable property, plant and equipment decreased by \$96.0 million to \$nil.

Through Old Port, in the prior years, the corporation received funding from the Government of Canada based on cash flow requirements. As of April 1, 2014, Old Port's appropriations were discontinued, and the corporation became responsible for funding Old Port's operating deficit and capital requirements.

At June 30, 2015, \$nil (March 31, 2015 - \$1.0 million) is recorded as government funding.

## 15. Expenses by Nature

The nature of expenses in real estate cost of sales, attractions, food, beverage and other hospitality expenses, rental operating costs, general and administrative, impairment, pre-acquisition costs and write-downs, and interest and other expenses consisted of the following:

	For the period ended June 30	
	2015	2014
Cost of Inventory, raw material and consumables used	\$ 43,541	\$ 245
Payroll & Benefits	12,220	10,850
Depreciation and Amortization	3,200	3,072
Food and Beverage Costs	3,112	2,979
Attraction Costs	1,428	1,756
Marketing and public relations	1,260	1,489
Office	628	722
Building cost	1,498	1,399
Leasing Expenses	2,558	2,147
Professional Fees	3,158	412
Property Taxes including PILT	4,443	3,771
Interest	1,969	273
Utilities	1,840	1,759
Impairment	-	380
IT Costs	332	413
Other	773	666
	\$ 81,960	\$ 32,333

## 16. Shareholder's Equity

### a) Capital Stock

CLCL is authorized to issue three shares, which shall be transferred only to a person approved by the Minister designated as the appropriate Minister for CLCL (Minister). The current Minister is the Minister of Public Works and Government Services. The three authorized shares have been issued and are held in trust for Her Majesty in right of Canada by the Minister. Nominal value has been ascribed to the three issued shares of CLCL.

### b) Contributed Surplus

Contributed surplus is comprised of the net assets of \$249.6 million acquired from the Minister of Transport, plus the net assets of Old Port and Downsview Park acquired on November 29, 2012 of \$36.1 million, less \$104.5 million transferred to capital stock. Subsequently, Canada Lands' capital stock was reduced by this amount through payments to the shareholder in accordance with the Canada Business Corporations Act during the period 1996 to 2000.

## 17. Operating Leases

### Leases as lessee

Non-cancellable operating lease rentals are payable as follows:

	June 30, 2015	March 31, 2015
Less than 1 year	\$ 698	\$ 1,027
Between 1 and 5 years	320	318
More than 5 years	-	-
	\$ 1,018	\$ 1,345

The corporation has operating lease obligations for quays, office space, computer hardware and other equipment. The leases typically run for a period of 1 to 10 years with an option to renew the lease after that date.

During the period ended June 30, 2015, an amount of \$0.3 million was recognized as an expense in the Consolidated Statement of Comprehensive Income in respect of operating leases (June 30, 2014 – \$0.2 million).

### Leases as lessor

The corporation leases out its investment properties, certain inventories and property, plant and equipment under operating leases with lease terms between less than 1 year to 45 years. Some leases have renewal options, with one lease having nine 10-year renewal options.

The future minimum lease payments under non-cancellable leases are as follows:

	June 30, 2015	March 31, 2015
Less than 1 year	\$ 17,725	\$ 16,370
Between 1 and 5 years	28,551	25,990
More than 5 years	15,929	17,107
	\$ 62,205	\$ 59,467

As part of purchase and sale agreements with a related party, the corporation is required to lease housing units to the related party. The units are leased to the related party at a discount compared to market rates, and generated \$0.5 million of rental revenue during the period (June 30, 2014 - \$0.2 million). The individual leases are renewed monthly and do not expire.

## 18. Income Taxes

Three months ended	June 30, 2015	June 30, 2014
Income Tax Expense		
Deferred tax recovery	\$ (952)	\$ (657)
Current income tax expense	2,403	1,417
Total Tax Expense	\$ 1,451	\$ 760
Reconciliation of effective tax rate		
Profit excluding tax	\$ 6,836	\$ 2,058
Domestic tax rate	26.13%	25.56%
Tax using the domestic tax rate	\$ 1,787	\$ 526
Non-deductible expenses	\$ 16	\$ 13
Other adjustments	(352)	221
Total Tax Expense	\$ 1,451	\$ 760

## 19. Consolidated Statement of Cash Flows – Supplemental Information

Non-cash increase in notes payable of \$1.8 million (June 30, 2014 – \$0.7 million) for interest, of which \$0.5 million was capitalized to inventory (June 30, 2014 - \$0.6 million), has been excluded from the financing and investing activities in the Consolidated Statement of Cash Flows.

The Board of Directors of the Corporation declared a dividend of \$10.0 million in June 2015. The dividend payable has been excluded from the consolidated statement of cash flows.

The costs to complete relating to sold properties of \$25.0 million (June 30, 2014 - \$nil) has been excluded from the operating activities in the consolidated statement of cash flows.

## 20. Related Party Transactions and Balances

The corporation is wholly owned by the Government of Canada and is under common control with other governmental agencies and departments, and Crown corporations. The corporation enters into transactions with these entities in the normal course of business.

During the period, the corporation declared a dividend of \$10.0 million to its shareholder, Government of Canada.

The following disclosures represent the significant transactions with related parties:

- (i) Notes payable to the government are non-interest bearing (note 11) and are repayable on the earlier of their due dates or six months after the fiscal year end of the corporation in which net proceeds become available from the sale by the

corporation of the properties in respect of which the notes were issued, except in a limited number of instances where the terms of the notes state when the issuer can demand payment and payment is not dependent on property cash flows.

(ii) The corporation's operating lease obligations include \$0.3 million (June 30, 2014 - \$0.8 million) with the Montréal Port Authority, an entity under control of the Government of Canada.

(iii) The corporation received various rental and other revenues from federal agencies and departments of \$0.6 million (June 30, 2014 – \$0.9 million), mainly from leases with the Department of Defence and Public Works and Government Services. In addition, the corporation incurred expenses of \$nil (June 30, 2014 – \$2.7 million) for various services received from Public Works and Government Services.

(iv) The corporation has a net receivable from federal agencies and departments of \$0.4 million (March 31, 2015 – \$0.5 million) and a government funding payable of \$nil (March 31, 2015 - \$1.0 million).

(v) Key management personnel compensation, which includes the corporation's senior management team and the board of directors, are described in the following table:

For the period ended June 30	2015		2014	
Short-term benefits (1)	\$	666	\$	522
Post-employment benefits (2)		26		28
	\$	692	\$	550

(1) Short-term benefits include salaries, incentive compensation, health benefits, and other benefits for current employees.

(2) Post-employment benefits include contributions to pension plans.

## 21. Fair value of financial instruments

Cash and cash equivalents, current trade receivables and other, current trade and other payables, government funding, and prepaid rent, deposits and others approximate their carrying amounts due to their short-term maturities.

The corporation has valued its long-term receivables by discounting the cash flows using the current market rate of borrowing plus a credit risk factor for its customers and partners, except for the long-term receivable from its third party partners which, due to the nature of the joint arrangement, has been discounted for the project risk.

The corporation has valued its financial liabilities by discounting the cash flows at current yields on government bonds plus a discount factor for the corporation's credit risk. There has not been any change in valuation technique for financial instruments during the year.

The carrying values and fair values of the corporation's financial instruments are summarized using the fair value hierarchy (note 2) in the following table:

As at June 30, 2015		Level 1	Level 2	Level 3
Classification	Carrying amount	Fair value		
<b>Financial Assets</b>				
Long-term receivable	\$ 109,771	\$ -	\$ 111,390	\$ -
<b>Financial Liabilities</b>				
Notes payable	274,796	-	280,293	-
Credit facilities	69,900	-	69,900	-

As at March 31, 2015		Level 1	Level 2	Level 3
Classification	Carrying amount	Fair value		
<b>Financial Assets</b>				
Long-term receivable	\$ 67,536	\$ -	\$ 70,720	\$ -
<b>Financial Liabilities</b>				
Notes payable	273,034	-	288,266	-
Credit facilities	71,600	-	71,600	-

## 22. Joint arrangements

The corporation has entered into a number of joint arrangements for the land development of properties. The corporation has assessed each joint arrangement individually and concluded that based on the terms and structure of

the contractual arrangements, each joint arrangement is a joint operation. The corporation recognizes its proportionate share of the assets, liabilities, revenues and expenses for these properties in the respective lines in the consolidated financial statements.

The following is a list of the corporation's joint arrangements:

Joint arrangement	Location	Nature of Property	Ownership Interest	
			June 30, 2015	March 31, 2015
CLC Bosa	Calgary, AB	Land development	50.0%	50.0%
West Vancouver	Vancouver, BC	Land development	50.0%	50.0%
Jericho	Vancouver, BC	Land development	50.0%	50.0%
Fairmont	Vancouver, BC	Land development	50.0%	50.0%

In May 2013, the corporation entered into a land development agreement for property in Calgary which is jointly controlled. The corporation has determined that the joint arrangement is a joint operation based on the terms and structure of the contractual arrangement, which requires unanimous approval from the corporation and the third party with regards to relevant activities of the property.

In September 2014, the corporation entered into three separate land development agreements (West Vancouver, Jericho, and Fairmont, respectively) for properties in Vancouver, with the same third-party partners (the Musqueam, Squamish, and Tsleil-Waututh Nations). Each of the three separate land development agreements is jointly controlled by the corporation and the third-party partners. The corporation has determined that each of the joint arrangements is a joint operation based on the terms and structure of the contractual arrangements, which require unanimous approval from the corporation and the third party partner's regarding decisions over all relevant activities of the properties.

The purchase of the Vancouver lands was financed through non-interest bearing promissory notes issued by the corporation. The corporation is responsible for the full repayment of the promissory notes on the earlier of their due dates or six months after the fiscal year end of the corporation when net proceeds become available from the respective property. These promissory notes will be partially funded by the third party partner's proportionate share of the notes payable, which is reflected as a long-term receivable (see note 7). Under each land development agreement, the third-party partners portion of the adjusted gross revenues is first applied to their share of the promissory notes.

The following amounts included in these consolidated financial statements represent the corporation's proportionate share of the assets and liabilities of its joint arrangement interests as at June 30, 2015 and the results of operations and cash flows from April 1, 2015 to June 30, 2015:

As at	Jericho		Fairmont		Other		Total	
	June 30, 2015	March 31, 2015						
Assets	\$ 92,818	\$ 92,476	\$ 23,731	\$ 23,022	\$ 7,619	\$ 7,246	\$ 124,168	\$ 122,744
Liabilities*	94,534	93,585	23,771	23,423	3,041	3,979	121,346	120,987

	For the period ended June 30							
	2015	2014	2015	2014	2015	2014	2015	2014
Cash flow used in operating activities	(131)	-	(524)	-	(498)	(966)	(1,153)	(966)
Cash flow used in financing activities	-	-	-	-	-	-	-	-
Cash flow used in investing activities	-	-	-	-	-	-	-	-
Revenues	286	-	314	-	0	-	600	-
Expenses	243	-	329	-	7	56	579	56
Net income (loss)	43	-	(15)	-	(7)	(56)	21	(56)

\* Liabilities include the corporation's obligation for the notes payable to finance the acquisition of inventory, net of the long-term receivable from its partners for their proportionate share of the notes payable funded through future project cash flows (note 7).

The corporation is currently providing funding as the project manager to all joint arrangements. For Jericho, West Vancouver and Fairmont, repayment of the partner's share of project costs is from joint arrangement cash flows.

The corporation's proportionate share of capital commitments for servicing requirements and other development costs for the joint arrangements at June 30, 2015 totalled \$0.6 million (March 31, 2015 - \$0.4 million).

## 23. Financial Risk Management

### a) Liquidity Risk:

Liquidity risk is the risk that the corporation will not be able to meet its financial obligations as they become due.

The table below summarizes the maturity profile of the corporation's financial liabilities based on contractual undiscounted payments:

As at June 30, 2015	Due by March 31, 2016	Thereafter	Total
Credit facilities (note 10)	\$ 69,900	\$ -	\$ 69,900
Notes payable (note 11)	31,070	301,451	332,521
Trade and other payables (note 12)	40,440	358	40,798
	\$ 141,410	\$ 301,809	\$ 443,219

As at March 31, 2015	Due by March 31, 2016	Thereafter	Total
Credit facilities (note 10)	\$ 71,600	\$ -	\$ 71,600
Notes payable (note 11)	31,070	301,451	332,521
Trade and other payables (note 12)	32,408	452	32,860
	\$ 135,078	\$ 301,903	\$ 436,981

The corporation manages its liquidity risk by forecasting and managing cash flows from operations and anticipating capital expenditures and financing activities. The corporation also manages its cash flow by maintaining sufficient cash balances to meet current obligations and investing surplus cash in low-risk bank investments.

The corporation has notes payable which are owed to the shareholder and under the related agreements, the notes are not due until positive cash flows are achieved from the properties by which they are secured, except in a limited number of instances where the terms of the note state when the issuer can demand payment and payment is not dependent on property cash flows (see note 11).

The corporation has borrowing authority from the Minister of Finance of \$200 million (March 31, 2015 - \$140 million) until March 31, 2016. The corporation's borrowing authority is renewed annually with the approval of the Corporate Plan. The corporation has \$140 million of credit facilities available, of which \$30.5 million is unused (March 31, 2015 - \$28.3 million). The credit facilities mature at March 31, 2016.

Accounts payable are primarily due within 90 days. The repayment terms for credit facilities and notes payable are disclosed in notes 10 and 11, respectively.

## **b) Market Risk**

Market risk is the risk that the fair values of financial instruments will fluctuate because of changes in market prices, and includes currency and interest rate risk.

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign currency exchange rates. The corporation has little exposure to currency risk.

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The corporation is exposed to interest rate risk on its credit facilities and cash and cash equivalents, which are based on variable rates of interest. The credit facilities are used to finance the development of lands and guarantee the corporation's letters of credit. A change in interest rates would not have had a significant impact on net earnings or comprehensive income in the current year. Cash and cash equivalents have limited exposure to interest rate risk due to their short-term nature. The impact of a change in interest rate of +/- 0.5% would not be significant to the Consolidated Statement of Comprehensive Income.

Financial assets and financial liabilities that bear interest at fixed rates are subject to fair value interest rate risk. The corporation measures these at amortized cost; therefore, a change in interest rates at the reporting date would not affect net income with respect to these fixed rate instruments.

## **c) Credit Risk**

The corporation's credit risk arises from the possibility that tenants or purchasers with vendor take-back (VTB) mortgages may experience financial difficulty and be unable to pay the amounts owing under their commitments. For VTB mortgages, the agreement is secured by a collateral mortgage on the property. For long-term receivables from partners, payments are made from the cash flows of the joint arrangements. The projected cash flows from the joint arrangements to the partners are significantly higher than the amount of the long-term receivables at June 30, 2015 owed to the corporation.

The corporation attempts to reduce the risk of credit loss by limiting its exposure to any one tenant or industry and performing credit assessments in respect of new leases or credit transactions. Also, this risk is further mitigated by signing long-term leases with varying lease expirations and obtaining security deposits from tenants.

The corporation's maximum exposure to credit risk is limited to the carrying value of trade receivables and other, long-term receivables and cash and cash equivalents.

The corporation's receivables of \$20.4 million (March 31, 2015 - \$20.6 million) are comprised primarily of current balances owing. The corporation performs monthly reviews of its receivables and establishes an appropriate provision for doubtful accounts.

The corporation's long-term receivables of \$109.8 million (March 31, 2015 - \$67.5 million) are comprised of \$59.7 million (March 31, 2015 - \$17.6 million) of VTB mortgages and \$50.1 million (March 31, 2015 - \$49.9 million) of receivables from partners. The corporation reviews the VTB mortgages and receivables from partners on a quarterly basis to determine if provisions are required.

The corporation's cash, including bank deposits and term deposits, of \$165.1 million (March 31, 2015 - \$184.2 million) is held with major financial institutions that are rated AA by a recognized credit agency. The corporation does not expect any related counterparties to fail to meet their obligations.

## **24. Capital Management**

The corporation's objective when managing capital is to maintain adequate levels of funding to support its activities.

	June 30, 2015	March 31, 2015
Shareholder's equity	\$ 445,246	\$ 449,861
Credit facilities	69,900	71,600
Notes payable	274,796	273,034
Cash and cash equivalents	165,077	184,193
Total	\$ 955,019	\$ 978,688

The corporation has notes payable which are owed to the shareholder and under the related agreements, the notes are not due until positive cash flows are achieved from the properties, except for i) a \$19.0 million note which is due in 2050, and ii) five promissory notes for which the issuer can demand payment of \$22.0 million by March 2016, and \$5.0 million by March 2017.

All short-term and long-term borrowings are approved by the Minister of Finance with respect to the amount, interest rate and term, and are included in the Corporate Plan which must receive Governor in Council approval.

In order to meet its objective, the corporation invests all capital that is surplus to its immediate operational needs in highly liquid financial instruments with original maturities of up to one year, such as bank deposits, deposit certificates and money market funds. All of these instruments are held with major financial institutions rated AA by a recognized credit agency.

On June 30, 2015, cash and cash equivalents total \$165.1 million. The cash equivalents are invested in term deposits with a Canadian chartered bank with maturities up to 42 days.

The corporation's strategy is to satisfy its liquidity needs using cash on hand, cash flows generated from operating activities and cash flows provided by financing activities, as well as proceeds from asset sales. Rental revenue, recoveries from tenants, lot sales, attractions and hospitality revenue, interest and other income, available cash balances, draws on corporate credit facilities and refinancing of maturing indebtedness are the corporation's principal sources of capital used to pay operating expenses, dividends, debt service and recurring capital and leasing costs in its commercial property, attractions and hospitality, and residential development businesses. The corporation plans to meet its short-term liquidity needs with revenue, along with proceeds from financing activities.

The principal liquidity needs for periods beyond the next twelve months are for scheduled debt maturities, recurring and non-recurring capital expenditures, development costs and potential property acquisitions. The corporation's strategy is to meet these needs with one or more of the following:

- cash flows from operations;
- proceeds from sales of assets;
- credit facilities and refinancing opportunities

## 25. Pension Plan

The corporation has two defined contribution pension plans covering all CLC full-time and certain part-time employees. In accordance with the terms of the plans, employees are eligible to join either at the date of employment or after a year of employment. The amount of the current service cost charged to expense for these plans was \$0.2 million for the period ended June 30, 2015 (June 30, 2014 – \$0.2 million).

## 26. Comparative Figures

The corporation has reclassified certain figures in the Consolidated Statement of Comprehensive Income. These reclassifications were to conform to the current presentation and better reflect the type of expenses. The reclassifications were as follows:

Period ended June 30, 2014	Restated	As previously reported	Change
Reclassifications on the Consolidated Statement of Comprehensive Income			
Attractions, food, beverage and other hospitality costs	\$ 16,852	\$ 15,489	\$ 1,363
Rental operating costs	7,953	6,857	1,096
General and administrative	6,304	8,763	(2,459)
	\$ 31,109	\$ 31,109	\$ -
